Onyx YONKEU Junior Fullstack Developper

Contact : 514 241 8512 | Email : yonkeuonyx@gmail.com | Address : 2245 Marie Anne st E, Montreal | Languages : Fr, En

PROFESSIONNAL PROFILE

Junior Full-Stack Developer with a DCS in Web, Mobile, and Artificial Intelligence Programming and hands-on experience gained through a professional internship, I specialize in building scalable, high-performance applications by integrating frontend, backend, and database technologies. Proactive, adaptable, and results-driven, I am eager to contribute to innovative teams and deliver impactful technology solutions.

QUALITIES

Professionnal

- Highly organized and detail-oriented
- Strong prioritization skills
- Deadline-driven

Technical

- Good comprehension of frontend and backend architectures
- Quality and efficient API design and database integration
- Solution driven mindset
- Fast learner, easily adaptable to new technologies

SKILLS

Programming Languages and Frameworks :

- **Html** and CSS (Bootstrap)
- **C#** (Asp.Net, LINQ, ADO.net & Entity Framework)
- **JavaScript** (Node.js, react, typescript, ejs)
- **PHP** (Laravel, symfony)
- **Java**
- **Kotlin**
- **Python** (Django, Flask, Fast, Streamlit)

Data bases:

- MySql
- SqlServer
- SQLite
- MongoDB
- Firebase
- Supabase

IDEs and Tools :

- Visual Studio
- Visual Studio Code
- Android Studio
- Flutterflow
- PyCharm
- Postman
- Git and GitHub

PROFESSIONNAL/ACADEMIC EXPERIENCES

September – November 2025 Fullstack Developper – Win Technologies

- Built and deployed mobile applications using FlutterFlow and Firebase, successfully published on Google Play and the App Store.
- Designed and implemented scalable RESTful APIs using FastAPI, ensuring secure and reliable global access.
- Integrated AI solutions (Claude and Gemini) to enhance application features and improve user experience.
- Developed responsive and dynamic frontend interfaces using TypeScript.
- Collaborated within an Agile/Scrum team environment, contributing to sprint planning, development, and timely delivery of project milestones.
- Participated in debugging, testing, and optimizing application performance.

Academic Accomplishments

Full-Stack & Web Development

- Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and React.
- Designed and implemented RESTful APIs using Node.js, Express, FastAPI, and integrated MongoDB and SQL databases.
- Built a full-stack streaming platform consuming a Node.js API with MongoDB.
- Developed e-commerce platforms with shopping cart and payment integration (PHP, ASP.NET MVC, Entity Framework).
- Created an administrative Back Office system with user role management using Laravel (OOP principles).
- Did database modeling and normalization
- SQL & NoSQL database management (CRUD operations).
- API design, backend logic implementation, and performance optimization.

Mobile Application Development (Android)

- Built Android applications using Java and Kotlin, including e-commerce and activity management apps.
- Integrated local databases using SQLiteOpenHelper.
- Implemented interactive features using device sensors and dynamic UI components.

EDUCATION

01/2024 – 02/2026 **Diploma of Collegial Studies:** Web, Mobile and AI Programming **- Teccart Institute**

10/2021 – 08/2022 **Professional Bachelor Degree:** Logistics and Transport **- SIANTOU Higher Institute**

09 /2019 – 08/2021 **Higher National Diploma:** International Trade – **NANFAH Institute**
